

Art Attack

ACTIVITY NAME: Ocean at home

YOU WILL NEED: Clean old jar or bottle

Baby oil

Water

Blue food colouring

Glitter or sand

Shells or toy fish

TIPS

If you don't have sand, try using tiny stones you can find outside

•

Why not add a toy boat or other little toys you may.

•

You can change the theme and colour- what about a unicorn bottle?

•

You can add a different colour to the water too for a different effect.

Why do the oil and water stay separate?

HOW TO -

- Put some sand or small stones in the bottom of your jar
- Add the coloured water to half way
- Add shells or small toys
- Fill to the very top with baby oil
- Seal the lid very tightly so it doesn't spill out
- Swish your jar about to see the waves and movement
