Anything else?	-Vowel errors -Sounds 'nasal'	☐ Yes ☐ No	n/a	☐ Refer

Next steps:

Your child ticked 'yes, age appropriate' for <u>ALL</u> boxes:
- You do not need to refer to Speech and Language Therapy at this time.
- Complete the phonological awareness pack.
- Repeat screen in 6 months if you continue to have concerns.

If your child ticked <u>ANY</u> box that states 'refer':
- Refer to Speech and Language Therapy AND
- Work on the resource packs (see page 7)

How do I request an assessment from Speech and Language Therapy?

You can find our 'Request for assessment' form on our Bury Directory Page under 'downloads':

https://theburydirectory.co.uk/services/speech-and-language-therapy-paediatric-community-services

When completing the form, please attach the **speech sound screen record and analysis form**. If you are completing the request for assessment form following intervention using the activity packs, then also attach the **record of practice** sheets.

If the child has not had a recent hearing test then it would be beneficial to refer them for one.

Irrespective of this screening tool, please refer to Speech and Language Therapy if you have concerns with stammering. This tool can still be completed with those with speech sound difficulties who also stammer. Please discontinue if causing distress.
