

Table 5: Leading cause of mortality for males aged 65 years and over by five-year age bands in Bury from the year 2013 to 2021

Age group (Males)	2013	2014	2015	2016	2017	2018	2019	2020	2021
Aged 65-69	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	Circulatory Diseases	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)
Aged 70-74	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)
Aged 75-79	Neoplasms (cancer)	Circulatory Diseases	Neoplasms (cancer)	Neoplasms (cancer)	Circulatory Diseases	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)
Aged 80-84	Circulatory Diseases	Circulatory Diseases	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	Neoplasms (cancer)	COVID-19	Neoplasms (cancer)
Aged 85-89	Circulatory Diseases	Circulatory Diseases	Circulatory Diseases	Circulatory Diseases	Circulatory Diseases	Neoplasms (cancer)	Neoplasms (cancer)	COVID-19	Circulatory Diseases
Aged 90 and over	Respiratory Diseases	Respiratory Diseases	Respiratory Diseases	Circulatory Diseases	Circulatory Diseases	Respiratory Diseases	Circulatory Diseases	Neoplasms (cancer)	Circulatory Diseases

■ Diseases of the nervous system	■ Respiratory Diseases	■ External causes of morbidity and mortality
■ Neoplasms (cancer)	■ Diseases of the digestive system	■ Data suppressed due to small number
■ Circulatory Diseases	■ COVID-19
