Fancy starting your own business? This course is aimed at teenagers with entrepreneurial spirit

Check out online learning resources

There are loads of online learning resources available now. Some even offer certificates.

Boost your CV and learn something new.

Think outside the box. It doesn't have to be school lessons. What is your hobby? Can you find an online course that will give you a certificate in something you love?

Many courses are free. But check with an adult if a course asks you for payment.
