

PROFESSIONAL PROFILE

About me

I am Shaista and I like to spend time with my family and cook food for family and friends.

I love going on adventures and trying out different activities.

I also enjoy going shopping and getting things for the house.

What I love about my job

Meeting families and being able to support them and make difference.

Three things in my house of good things

- My family
- Samosas
- cleaning

Three things in my house of worries

- My youngest struggling as she has additional needs
- Boiler breaking down

Three things in my house of dreams

- To have a bigger garden
- To have an extra room downstairs
- To have another bathroom

Name: Shaista Mahmood

Mobile number: 07583038603

Who is my boss: Helen Beeley

What is my role: Children with Disability Family Support Worker

How I can help you

I look forward to being able to support you, your child and your family's needs as we work together to set up a plan that is suitable for everyone.

About the team

We work with families if the child's complex disability is having a significant impact on their lives, and the children or young people can't always do the ordinary things that another child or young person would do. You can find out more about this in our eligibility criteria.

We work across a range of ages; we are a 0- to 18-year-old service. The work we do depends on what the child or young person and their family need. Wherever possible all children and young people, with or without disabilities, should be supported to have their individual needs met by their family and by universal (available to everyone) and targeted services which are available in their local community.

Each family is different so if extra help is needed the social workers on the team meet children, young people and families, gather some information, and carry out an assessment. We work hard to make sure that we offer the right kind support and to you at the right time.

The team is committed to the rights of children and young people with disabilities to fulfil their personal potentials, ambitions and their roles in society.
